

SKY KNIGHTS

Stunning Aerial Combat in new Swedish Indie Game

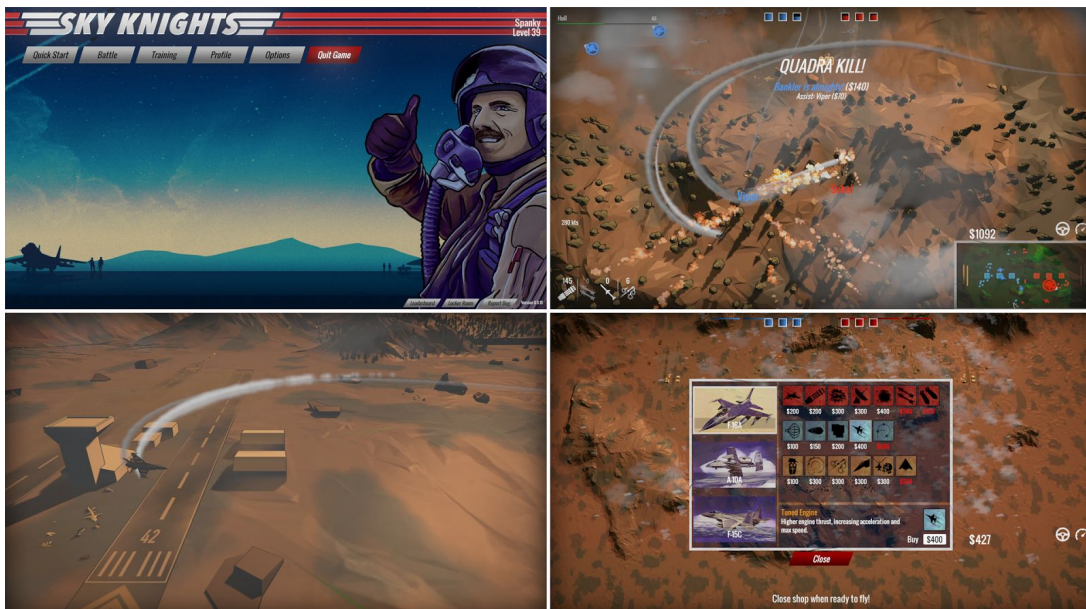

STOCKHOLM, December 28, 2016 — Sky Knights is a top-down online action game for PC, in which you take on the role of a modern fighter pilot. You fly with and fight against other players online as you struggle to win each battle. The game is easy to pick up and offers a quick action-packed experience, but at the same time stays true to many fundamentals of realistic aerial combat.

About the creator

Sky Knights is created by indie developer Hampus Bankler, former senior game programmer at Rovio and one of the prime architects of Angry Birds 2. While Hampus Bankler is responsible for all design, programming and even writing the music in the game, a team of other senior game developers, many with experience from the Battlefield series, contributed to the project with art, sound and testing.
